## Accelerated Reader

The Accelerated Reader software program makes it easy for teachers and librarians to motivate every student to dramatically increase literature-based reading practice. Students are able to:

- 1) choose their own books from over 30,000 titles
- 2) read at their own pace and take computerized multiple-choice Reading Practice quizzes
- 3) get immediate feedback which also keeps the teacher updated on their performance

**Interest Levels**  
 LG - lower grades = K - 3  
 MG - middle grades = 4 - 8  
 UG - upper grades = 9 - 12

**Readability and Interest Levels**  
 Renaissance Learning™ uses Interest Levels to help indicate the appropriateness of a book's content. The Interest Level reflects the judgment of the book's publisher and the professionals at Renaissance Learning. However, the final decision on whether a book is appropriate for a particular student is the responsibility of school librarians, teachers, and parents.

**Crabtree's Note About Readability Formulas**  
 Educators have reported dissatisfaction with readability formulas for non-fiction books. Non-fiction books tend to be graded higher than usual by these formulas due to difficult or technical terminology which may already be explained within the text or in the glossary of the book.

### ACCELERATED READER QUIZZES

Accelerated Reader Quizzes are only available for purchase through Renaissance Learning. Any quizzes created after July 1, 2012 will not be available to AR desktop customers.

## Guided Reading (GRL)

Guided Reading is an instructional approach in which a teacher brings together a small group of children who are similar in their reading behaviors at a particular point in time. The teacher selects a text that enables them to use what they already know how to do as readers and extends their “processing power” with a few new challenges. Through reading with teaching support, they become more effective processors of text. The ultimate goal of Guided Reading is independent reading.

Guided Reading Book Level	Approximate Grade Level
