### Map My School by Harriet Brundle

This dynamic book brings mapping skills down to a micro level by showing children how anything can be mapped—including their own home or school. Images combine with simple explanations to show readers how maps give us a bird's-eye view of an area and can help us see the layout of buildings. Tips on building drawing skills make it easy for readers to craft their own maps.

- Books feature the parts and purposes of maps, with hands-on activities that encourage readers to create their own maps.

### From Map My School

## WHAT IS A MAP?

A map is a picture that gives us information about an area. Maps can show a lot of different things. A map can show roads, stores, and **services** in the area.

4

Some maps are printed on paper. Other maps can be viewed on a screen. These are called **digital maps**.
