My World Series
Guided readers ~ Level E Set

The *My World* reading series is a set of non-fiction books that are designed to help young children become enthusiastic and motivated readers. Each book is geared to a specific reading level and has colorful, child-friendly photos. All the books have great kid appeal through use of humor and introspection. By using this *Teacher’s Guide*, you have an opportunity to tap into high student interest while exposing students to a wide range of subjects. The books have been color-coded by rainbow colors to make it easier for children to identify which books they can read next.

Participation in the lessons in this guide will lead students to make connections and understand concepts such as classification, patterns, and how families, friendships, and communities work. Students will become aware of what they need, how they can cooperate, and how they share resources with people and animals. They will realize that they can make a positive difference through their actions.

The lesson plans are tailored for grades K–1 and address various subjects, such as science, language arts, performing arts, mathematics, and social studies. The book titles referenced in this guide include:

**Level A**
- I can count
- I eat a rainbow
- Who am I?
- My toys have shapes

**Level B**
- Arms and legs, fingers and toes
- I have feelings
- It is my birthday
- What do I see?

**Level C**
- Baby animal names
- I am growing and changing
- I can do it!
- The clothes I wear

**Level D**
- My big and small pets
- My healthy body
- My senses help me
- I move like this

**Level E**
- Hip-hop dancers
- This is my family
- This is my home
- What are my jobs?

**Level F**
- What do I need?
- Where am I?
- Rodent rap
- These are my friends

**Level G**
- My family community
- My school community
- Places in my community
- Helpers in my community

**Level H**
- An animal community
- How do animals hide?
- My backyard community
- Where do animals live?

The 32 color-coded books in the reading series are divided into eight different reading levels, allowing children to move from level to level as their skills progress.

</tbody>
</table>
Students will identify different animal movements and incorporate these movements into their own dance sequence.

National Standards
The following standards will be addressed in the lesson:

Arts
Dance: Identifying and demonstrating movement elements and skills in performing dance

Physical Education
Participate in physical activities that are enjoyable and challenging.

Language Arts
Students apply a wide range of strategies to comprehend, interpret, evaluate, and appreciate texts.

Multiple Intelligences
The following intelligences will be activated throughout the lesson:

- Bodily-Kinesthetic
- Linguistic

Content

Prerequisites
Arrange to work in the gym or other large open area.

Materials

- Hip-hop dancers book

Instructional Procedure

Anticipatory Set
Before reading the book, help the children connect with their previous experiences and understandings of dance.

Example:
Ask, “What do people do when they dance?”
“What kinds of dances do you like to do?”
“Do you think animals can dance?”

Set a purpose for reading.

Example:
“As I am reading, look at the animals in the book and see how they move as they dance.”

Class Discussion
Engage the children while you are reading by emphasizing the beat and rhythm of the language.

After each line you read, ask them to repeat it with a beat. Encourage the children to move with the beat as they chime in.

Ask the children to read Hip-hop dancers on their own.

Optional: During reading period, teacher may choose to meet individually with students to assess literacy skill development using the Reading Comprehension Rubric or the Reading Fluency Rubric (see blackline masters).

Objectives

The child will be able to…

- demonstrate three different types of animal movement through dance.
- explain his/her dance sequence in terms of beginning, middle, and end.
Activity

After reading the book, go through the pages and discuss the gestures that the animals used.

Bring students to the gym or other large open area. Have the children warm up by asking them to find a space. Call out the name of each animal and ask the children to move like that animal. Encourage gesture and rhythm in their movements.

Signal the children to stop. Now it is your turn to demonstrate three different movements of three different animals. Have the children guess which animal was at the beginning of your sequence, in the middle of your sequence, and at the end of your sequence.

Now ask the children to create their own sequences of three movements to show three different animals.

Give them time to practice and then signal them to stop.

Now have the children work in pairs. One child watches while the other child dances. The watching child guesses which animals their partner is portraying. The children then exchange roles.

Accommodations and Extensions

Extension suggestion:
Music may be added to this experience and the children asked to incorporate their animal dance or to create other dance steps and gestures in rhythm to the music.

Closure

Reinforce the concepts of beginning, middle, and end.

Discuss how rhythmic movement and gesture is important in conveying the way different animals move.

Assessment

Assess child’s ability to read the book.

Select a group of children and assess their ability to create a sequence of three different animals dancing.

Assess their ability to explain their dance sequence using the terms: beginning, middle, and end.
Students will increase their awareness of the composition of families.

**National Standards**
The following standards will be addressed in the lesson:

**Social Studies**
Living and working together in families and communities, now and long ago

**Language Arts**
Students will use spoken, written, and visual language for learning and for the exchange of information.

Students apply a wide range of strategies to comprehend, interpret, evaluate, and appreciate texts.

**Multiple Intelligences**
The following intelligences will be activated throughout the lesson:

- **Linguistic**
- **Visual-Spatial**
- **Interpersonal**

---

**Anticipatory Set**
Before reading the book, assist children in connecting with their understandings of their own families.

**Examples:**
Ask, “Who is in your family?” Some children may wish to include pets as family members.

“Do all your family members live in your home?”

“Do you have brothers and sisters?”

“Do any of them have the same birthday?”

Set a purpose for reading.

**Example:**
“As I am reading, you will notice different members that some families have. How are they the same or different from your family?”

“Do you have any triplets or quadruplets in your family?”

**Class Discussion**
Engage the children while you are reading, bringing out different names that children may use for family members, i.e., mommy, mom, momma, etc. You may wish to print the title My Family, and a list of family words on chart paper as a reference. You can add these words to the word wall.

After discussion, ask them to read *This is my family* on their own.

**Optional:** During reading period, teacher may choose to meet individually with students to assess literacy skill development using the Reading Comprehension Rubric or the Reading Fluency Rubric (*see blackline masters*).
Activity
Show the children the photographs of your family, and how you have arranged them on the bristol board. Remember to print the title, “My Family.”

With your last photograph, demonstrate how you put the photo corners onto the photo by peeling the backings and then placing the photo carefully on the board.

Print a sentence describing the photo on a piece of paper and then glue that underneath your photo.

Invite the children to start their family posters.

Accommodations and Extensions
Any children who were unable to bring in photographs can draw their own pictures and then glue those to the bristol board.

Closure
Have children describe their family poster, either in small groups, or in short presentations to the class.

Assessment
Record the child’s ability to read the book.

This activity gives opportunities for assessment of oral language and fine motor control. Take anecdotal notes focusing on the following skills:
• use of descriptive language in oral presentations
• fine motor control in creating a family poster
• understanding of different family units
This is my home
A lesson about homes

Content
Students identify different types of homes, as shown in the book. They recognize the functions of various rooms in a home.

National Standards
The following standards will be addressed in the lesson:
Art
Students will use different media techniques and processes to communicate ideas.
Social Studies
Living and working together in families and communities, now and long ago
Language Arts
Students apply a wide range of strategies to comprehend, interpret, evaluate, and appreciate texts.

Multiple Intelligences
The following intelligences will be activated throughout the lesson:
- Visual-Spatial
- Linguistic

Prerequisites
Book a large block or blocks of time for this art activity.

Have children bring in boxes (shoe boxes or other types of cardboard boxes), which can be used to create diorama models of a room in their home.

Make or buy play dough and/or plasticine.

Have “paint shirts” ready or ask children to bring a paint shirt from home to protect their clothes.

Gather supplies of yarn, paper, cardboard, etc.

Prepare a place, away from their working area, where the children can leave their boxes to dry.

Teacher may wish to create a model diorama to use as an example for students.

Materials
- A copy of This is my home
- Boxes to give structure to the room the children are going to create.
- Play dough and/or plasticine for each child to create furnishings for their “home” room
- Paint and paint brushes to paint the boxes
- Newspaper to protect desks or tables
- Paint shirt for each child
- Materials from the art center, i.e. construction paper, yarn, markers, material scraps, etc.
- Children may wish to bring in miniature furniture from home to use in their diorama.

Instructional Procedure

Anticipatory Set
Before reading the book, assist children in connecting with their previous experiences and understandings of home.

Examples:
“What is a home?”
“Why do we have homes?”
“Are there different rooms in your home?”
“What are the rooms used for?”

Set a purpose for reading.

Example:
“This is a book about homes. As I am reading, I’d like you to think about the rooms in your home, what happens in the rooms, and what kind of furniture is in them.
**Class Discussion**
Engage the children while you are reading; discuss the types of homes and the functions of the rooms which are shown.

Ask the children to read *This is my home* on their own.

Optional: During reading period, teacher may choose to meet individually with students to assess literacy skill development using the Reading Comprehension Rubric or the Reading Fluency Rubric (see blackline masters).

**Activity**
Explain that each child is going to make a model of a room in a home. Encourage children to choose different rooms so that in the end, there will be a wide variety of room models.

The children can choose to make a model of a room they have in their house as it is, or they can choose to create a room that they would like to have in their home.

Children prepare the area they are going to be using by covering it in newspaper, and then they put on their paint shirts.

Select cardboard boxes, cut them to size if necessary, and paint them.

While the paint is drying, the children can use the play dough or plasticine to create the furniture for their rooms.

They may opt to use pieces of cardboard, paper, yarn, material scraps, etc. to enhance their work.

**Accommodations and Extensions**
Some children may require extra time to complete their dioramas to their own satisfaction. If the painting is done in the first block of time, then the actual creating of the furniture and decorating of the room may be completed on an ad hoc basis.

**Closure**
Celebrate the dioramas with the children and display them in the classroom. A number of them may be put together to create a “house.”

Again, discuss the functions of the rooms and how the furnishings reflect these functions.

**Assessment**
Record the child’s ability to read the book *This is my home*.

A checklist could be made to record each child’s ability to:
- state the type of home in which he or she lives
- describe a variety of rooms in a home
- describe the function of those rooms
- fine motor development in creation of the model room
- detail shown in the model
- oral communication in the description of the model
What are my jobs?
A lesson about responsibilities

Content
Students examine the roles and responsibilities that children may have in the home.

National Standards
The following standards will be addressed in the lesson:
Social Studies
Students will describe some responsibilities that people have in the home.
Mathematics
Students will sort and classify pictures
Language Arts
Students apply a wide range of strategies to comprehend, interpret, evaluate, and appreciate texts.

Multiple Intelligences
The following intelligences will be activated throughout the lesson:
- Visual-Spatial
- Logical-Mathematical

What are my jobs?
A lesson about responsibilities

Materials
- What are my jobs? book
- chart paper and markers
- class set of What are my jobs? blackline master
- scissors (one pair for each child)
- glue sticks
- pencils

Instructional Procedure
Anticipatory Set
Before reading the book, assist the children in connecting with their previous experiences and understandings of what a responsibility is.

Example:
“Is it a job? Is it work? Is it play? Is it something you are asked to do or something you should do?”

Set a purpose for reading.
Example:
“As I am reading, look at the responsibilities that these children and adults have and think about the responsibilities that the people in your home have.”

Class Discussion
Engage the children while you are reading.

Examples:
Page 4: “Raise your hand if both your parents work.”
Page 6: “Does this sometimes happen to you?”

When you have finished reading the book, ask questions such as:
“What are your jobs at home?”
“What are you jobs at school?”
“Do you like having responsibilities?”
“Which play activities do you like?”
“What is the difference between work and play?”

Have children read What are my jobs? on their own.

Optional: During reading period, teacher may choose to meet individually with students to assess literacy skill development using the Reading Comprehension Rubric or the Reading Fluency Rubric (see blackline masters).
**Activity**

Introduce chart to children. Review the differences between “work” and “play.”

Show children a picture from the blackline master. Have students discuss if the picture shows “work” or “play.”

Place picture in correct column. Repeat with another picture if an additional example is needed.

Show *What are my jobs?* blackline master to students. Explain that they will follow the same process as the example done as a class.

Have the children cut out the pictures and sort them into two piles before gluing the pictures in the columns.

**Accommodations and Extensions**

*Extension suggestion:*

 Invite students to add to their charts by drawing pictures of their own examples of “work” and “play” tasks.

**Closure**

Explore with the children the consequences of people not following through on their responsibilities in both work and play.

Choose particular situations, such as not doing the laundry, not washing dishes, not buying groceries, not walking the dog, and so on.

Ask the children what would happen if they did not do some of their chores and no one else in their home did them, either.

**Assessment**

Record the child’s ability to read the book.

Fine motor coordination can be assessed as the children cut out the pictures.

Assess the ability of a group of children in sorting and classifying their pictures into work and play sets.

Assess reproducibles for accuracy.
## Reading Comprehension Rubric
